I don't think EPA can commit to that at this time. Let's be in touch early next week to see what we may be able to schedule.

Thanks - should we still be planning on a presentation of the proposed plan by EPA the last week of June?

Hi, Bruce. Sorry for the delay in replying. EPA is planning to announce the release

date of the Proposed Plan on Friday, May 27th. When the Proposed Plan is released, EPA is planning on a 60-day public comment period, which adds 30 days to the required 30-day comment period since we have received requests for a longer review time. EPA is also still planning to issue the Record of Decision this year.

Lori

Will be conferring with the Group today - this was the date originally penciled in for the EPA presentation on the Proposed Plan – and given that it is the week of the 23rd, was wondering whether you had any info on the delivery date for the Feasibility Study and the Proposed Plan that I could pass on to the Group.

Thx,

Bruce White

Hello, Bruce. I wanted to give you an update on EPA's schedule. EPA expects to announce the delivery date for the Feasibility Study and the Proposed Plan by the week of May 23rd. Data synthesis and electronic document preparation have continued to pose challenges, but we are working through them and hope to publish the Proposed Plan shortly thereafter our announcement. Thanks.
